

Sequoia sempervirens

Brand:
Product Code: 1529
Availability: Out Of Stock
Weight: 25.00g
Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$125.00

Short Description

A large evergreen tree which often reaches heights in excess of 100m in its natural habitat. It has a thick, reddish brown bark with deep furrows running the length of the stem. Foliage is dark green and needle-like and grows flat off the branches. The wood has exceptionally straight grain, high dimensional stability and is resistant to warping.

Description

Coast redwood. A large evergreen tree which often reaches heights in excess of 100m in its natural habitat. It has a thick, reddish brown bark with deep furrows running the length of the stem. Foliage is dark green and needle-like and grows flat off the branches. The wood has exceptionally straight grain, high dimensional stability and is resistant to warping.
